

2. Motion related to WRAC motion regarding Sidewalk and Transit Amenities Program (STAP) regarding LA City Council File 20-1536.

MOTION FOR SUPPLEMENTAL MATERIAL

The MVCC joins the Westside Regional Alliance of Councils in supporting the Bonin/Blumenfield motion in CF 20-1536, and further requests that:

- prior to contract finalization, the City conduct an extensive and open public process, in which detailed information about STAP, the RFP and the contract negotiation process is made widely available and members of the public, community leaders and neighborhood/community councils are invited to provide ongoing input on community impacts, problems and ridership needs with respect to STAP;
- in connection with any contract that is eventually negotiated, the City 1) respect and abide by Community Plan, Specific Plan, Scenic Highway and Coastal Zone protections and requirements, including in the public right of way, and 2) address constituents' concerns about preservation of community character, protection of residential neighborhoods, public safety, environmental impacts and privacy infringement;
- all protections for scenic corridors, for local street furniture preferences and for neighborhoods with Specific Plans and codified prohibitions against offsite advertising that were negotiated and included in the JCDecaux contract be carried forward in any new contract that is negotiated; and
- the City restrict any new digital signs in or near bus shelters to sign districts in the 22 areas already zoned as Regional Commercial for high-intensity commercial use and further, that any digital signage employed in this initiative comply with epilepsy protocols.

Lastly, regarding the amenities that are going to be installed in the local planning area in our community, StreetsLA shall seek feedback from both the Mar Vista Community as well as CD11.

(MK NOTE: If passed, would go to LA City Council File 20-1536 as well as Bonin, Metro Board and WRAC - I will provide addressees.)

Please note, original WRAC motion ends with the paragraph ending in "high-intensity commercial use." See original motion here:

<http://www.marvista.org/docs/34486278-11682.pdf>

The T&I committee added the following amendment which passed:

and further, that any digital signage employed in this initiative comply with epilepsy protocols.

Lastly, regarding the amenities that are going to be installed in the local planning area in our community, StreetsLA shall seek feedback from both the Mar Vista Community as well as CD11.
