

POLICY MOTION

COMMITTEE: Transportation & Infrastructure

TITLE: Implement a Crosswalk and Staircase

PURPOSE: To facilitate safe crossing of Beethoven St. between high traffic areas of Appleton Way staircase and the alleyway connecting Moore St. and Beethoven St.

BACKGROUND:

As the pictures demonstrate, there is an alley located between 3428 and 3436 Beethoven St. that connects Beethoven St. to Moore St. (the "Alleyway"). Across Beethoven St. From the Alleyway, there is a staircase connecting Beethoven St. to Appleton Way (the "Staircase"). Many people use the staircase for exercise and congregating to watch sunsets. Many who use this staircase arrive via the Alleyway. Vehicle traffic can be very fast on this section of Beethoven St. and a pedestrian crosswalk with associated signage would better facilitate safe pedestrian traffic between the Alleyway and the Staircase.

THE MOTION:

The MVCC is FOR creating a pedestrian crosswalk located between 3428 and 3536 Beethoven St. connecting the Staircase and the Alleyway.
